Child ID #: _____ Date: _____

Address: _____ Apt. #: _____

An inspector from the NYC Department of Health and Mental Hygiene (DOHMH) inspected your apartment for lead paint hazards and other home health hazards. This checklist tells you what problems the inspector found in your apartment. A checklist is also being sent to your landlord.

Protect your child's health!
Please read the checklist below and the brochures provided. For more information, call 311
or see the following website: www.nyc.gov/health/healthyhomes

TENANT CHECKLIST

HOME HEALTH HAZARD	HAZARD FOUND IN YOUR HOME	WHAT YOU CAN DO
Lead paint hazards in your apartment	☐ Yes ☐ No	The health department has ordered your landlord to fix lead paint hazards. If the owner does not make the repairs, please call (212) 676-6379.
Missing or broken window guards (if a child under age 11 lives with you)	☐ Yes ☐ No	The health department will order the landlord to install or fix the window guards. If the landlord doesn't make the repairs within 30 days, call 311.
Missing smoke alarms **Missing carbon monoxide (CO) alarms**	☐ Yes ☐ No ☐ Yes ☐ No	Ask the landlord to install the alarms or do it yourself. Change batteries twice a year. Doing it when you change your clocks for daylight savings time will help you remember. If either the smoke or the CO alarm rings, everyone should leave the apartment immediately. Then call 911.
Mold in the apartment (except on bathroom tiles and grout)	☐ Yes ☐ No	Landlords are responsible for removing mold everywhere except on bathroom tile and grout. Call 311 if the landlord doesn't remove or and fix leaks that can cause mold. You can remove mold on bathroom tiles and grout with soap and water. Read the enclosed brochure to learn how to prevent mold growth.
Roaches and/or mice in your apartment	☐ Yes ☐ No	Read the enclosed brochure to learn safe ways to control pests without using dangerous pesticides.
Rats in your apartment	☐ Yes ☐ No	Call 311 to report rats in your apartment, building or neighborhood!
